Red Cross Faces One of Hardest Tasks, Judge Payne Said.

WASHINGTON, Sept. 21.-John Barton Payne, chairman of the Red Cross, construes information reaching the Red Cross from the hurricane devastated territory as indicating that his organization faces one of the hardest tasks of relief work in its history.

"Although a week has elapsed since the West Indies hurricane devastated Porto Rico and part of the Virgin Islands," Payne said, "and five days have passed since it swept over the State of Florida, the full extent of the relief problem is still of uncertain proportions. Enough is known, however, to justify the statement that the Red Cross, charged by the President of the United States with giving aid to those in need, is facing one of the greatest relief tasks in its his tory, second probably only to that created by the Mississippi Valley that thousands are in distress in Porto Rico and St. Croix and that within one county in Florida alone 15,000 people are not only home-less, but absolutely destitute."

CURTIS URGES HIGHER AGRICULTURAL TARIFF

Assures Valentine (Neb.) Audience G. O. P. Will Increase Rates to Protect Farmers.

Ey the Associated Press.

EN ROUTE WITH SENATOR
CURTIS IN WYOMING, Sept. 21. -Day and night speaking against the winds of western plains is the daily program of Senator Charles Curtis, Republican vice presidential nominee, on his tour of the farm areas. He has made from two to 14 speeches a day since leaving Chicago and, with one exception, all have been out of doors.

The voice of the veteran cam-paigner was a little husky today as he carried his plea for a protective tariff with higher rates for agriculture into Wyoming, but he was out on the back platform at an early hour to speak to the

Tonight he will speak at Sheridan, his only stop in this State.
Last night at Valentine, Neb., the Senator answered a plea to address a Republican rally and for the first time in the West he spoke indoors. Despite an 80-mile motor trip during the day over the treacherous roads and a busy afternoon with the Sioux Indians at the Rosebud Reservation in South Dakota, he spoke for more than an hour at Valentine.

Curtis declared that farmers could look for greater assurance in the "promise" of Herbert Hoover for farm relief "than in a Democratic Congress which Gov. Smith might bring in." He said a higher tariff on agri-

cultural imports was needed and would be given by Republicans. He said the present tariff act embo-died the rates proposed by the farmers.

"Why didn't the Republicans go

high enough?" he asked. "A proper question. We wrote this tariff bill just after the war in unsettled times. We wrote into it the rates asked by the organized farmers, but now we all know we did not go high enough and I tell you we are going high enough." He read statistics showing im-portation of butter, eggs, wheat, hay, flax seed and hides, and com-pared these with those under the Democratic tariff act. He said that 354,000 pounds of hay were imported in 1926, although the Republicans had doubled the rate on hay. Flax seed imports last year

were 18,000,000 bushels "more than is grown in the three great flax producing states of this country." Curtis spoke at Valentine on the ame platform with A. J. Water, Republican candidate for Governor and called for the election of the entire Republican ticket in this state and indorsed the record of Senator Howell, running for re-

He picured the Hoover sentiment as be-ing carried forward by a "ground

swell" of tremendous proportion.
"In my travels," said Work, spective of the political situation in the country. It is not too much to say that the oficers of he kepublican party have been kept in closer touch with the central or-ganization than ever before. The reports coming in are most assur-

Booklet Issued by National Committee Assails "Fallacy of Republican Position "

NEW YORK, Sept. 21 .- A secon of the Democratic cameaign handbook devoted to the tariff was made public last night at the party's national headquarters. It outlined the Democratic position on this issue and attacks what it calls the "fallacy of the Repub

ican position." The Democratic party, the book states, views the tariff as "an instrument of national policy, to be framed in accordance with needs of industry, agriculture, the workers and the consumers." Quoting Gov. Smith's acceptance speech, it asserts "the Democratic party stands squarely for the maintenace of legitimate business and a high standard of wages for Amer-

"The fallacy of the Republican osition." the handbook says. statements of Mr. Hoover. Tariffs. can protect only those industries which might have foreign competition. . . . The goods we send out must be paid for by those who receive them. This can be done goods. Tariffs higher than equalized costs prevent this, shut off our trade and depress the indus-

tries which export."

The booklet says that the present tariff commission, established under President Wilson, "has gone from bad to worse in the past six years largely because Presidents
Harding and Coolidge have
dragged it down into the mire."
It cites the senatorial investigation of the commission and says the commission's first chairman charged "the commission has de-

teriorated from a fact finding body to a semipolitical organization." Appointment of Thomas O. Mar-Burgess of Pennsylvania to the commission is criticised on the grounds that "both had been lobyists seeking protection prior to

their appointment."

friends. Although no confirmation could be obtained it is reported Miss Lauder and her party will sail for

Naples. Present plans include a wedding ceremony at Sorrento, Italy, and a honeymoon abroad.

Miss Lauder passed her last two days in New York shopping. Her trousseau includes, it is reported, a mink coat worth \$10,000, 48 dinner and evening gowns and sport-costumes, \$800 worth of lingsrie and the other numerous accessories of a socially prominent young woman. In the party accompany-ing Miss Lauder are Mrs. George Lauder, her mother; her brother, George: a sister, Mrs. Edwin S. Dewing of Hartford, conn.; Mrs. Percy Rockefeller and Henry C. BOND ISSUE IS SPENT

Comptroller's Report Shows \$39,285,000 Has Been Disbursed on Improvements.

the city has spent almost half, or \$39,285,766, of the \$87,372,500 in public improvement bonds voted in 1923, it is shown in a compilation as of Sept. 18, issued by the Comproller's office today.

The city has appropriated \$58,-303,564 of the funds, keeping plans constantly ahead of contracts and work, and has sold \$38,000,000 par of the bonds. Next Friday it will sell an additional \$10,000,000. Appropriations exceed the amount of bond sales to date by \$20,828,377 under authority of a charter amendment voted to facilitate the

nprovements.
The bond program has been moving steadily forward, keeping up to the original schedule. City officials have had to explain to quirers time and again that the whole group of betterments pro-vided for by the bond issue could ot be undertaken in any one year, but that it was necessary to spread the work out over a long eriod to avoid a material ease of the sinking fund tax

EDWARD G. DAVIDSON

He Formerly Was Member of years old. A warrant charging him with attempted burglary will Legislature When He Headed Insurance Committee.

Edward G. Davidson, former member of the Legislature, has been appointed by Circuit Attorney Sidener to the position of First

Assistant Circuit Attorney.

The Circuit Attorney has explained that, while Davidson takes the title of first assistant, L. Joel Wilson will continue to perform the duties that have been per-formed by the first assistant. Wilson will be designated hereafter simply as an assistant. The purpose of this change is to increase Wilson's salary \$200 a year. The last Legislature increased the assistant's salaries to \$4200 a year, but left the first assistant at \$4000. thich will be Davidson's salary.

Davidson was elected to the low 1921 session, he was chairman of the House Committee on Life and Accident Insurance. In that year, Attorney-General Barrett institut ed an inquiry into the expense accounts of the State beverage in spectors. The Cole County grand jury at Jefferson City voted two indictments charging Davidson with third-degree forgery.

This charge, under the law, cov-ers alteration of the contents of a document which previously has been signed, not the actual forg-

It was alleged that Davidson had litered the expense accounts of two deputy inspectors, had cashed em, and had retained for himself the difference between the expenses actually incurred by the deputies and the amounts for which the warrants were cashed. Davidson was tried on both indictments, in June and July, 1922

and was acquitted in both cases.

Davidson, formerly an insurance broker, applied Aug. 2, 1921, to the ted to the next regular bar examination. Six weeks later, he changed the application, and asked for a special examination, saying he wished to avail himself of an opportunity to get into a law firm The Supreme Court granted the equest, and on Oct. 31, 1921, Dav-lson appeared before Robert M Reynolds, a member of the State oard of Law Examiners, at Reynolds' office in Marshall. Reynolds ertified that he found Davidson be qualified for licensure to practice law. Because of the fact of Davidson's indictment in the verage expense account cases, e Supreme Court deferred acon, and Davidson was not licensed the Court until Dec. 6, 1922. his action followed a letter from harles G. Revelle of St. Louis Davidson's attorney, telling of hi uittals. Edward Foristel and F. A. Wind, with Revelle, were spor sors for Davidson's application, and Judge Wilson A. Taylor gave

him a certificate of character. Before filing his first application Davidson took an examination be-fore Sam A. Baker, then State Superintendent of Schools and now Governor, as to his educational qualifications. Baker certified that Davidson had taken a grammar school course and had a general ducation substantially equivalent o a high school course; that he had examined him in civil gov-ernment, American and English literature, Latin, general history. American and constitutional history, and that his average grade

election to the Legislature in 1922 but was elected in 1924, and in the 1925 session he held the same committee chairmanship as in 1921 Recently he represented the Circuit Attorney in Chicago, in hand-ling the extradition papers for the return to St. Louis of Roy C. Toombs, former president of the International Life Insurance Co. under indictment here. Toombs is still in Chicago, and is under bond the question of his return to Missouri, the Governor of Illinois having granted extradition.

GLASS ASSAILS HOOVER ON EUROPEAN RELIEF

Says Even G. O. P. Leaders Criticised Nominee-Caraway Attacks Record.

WASHINGTON, Sept. 21 .- Two Democratic Senators—Caraway of Arkansas and Glass of Virginia— last night leveled attacks on the public record of Herbert Hoover. Senator Caraway, speaking at Leonardtown, Md. criticised the Republican presidential nominee for failure to protest against the contribution in 1924 of Harry F. Sinclair, the oil magnate, to the Republican campaign fund, and for his "inclination to gouge the Amer-ican public in the interests of big corporations" while he was Food Administrator. He also attacked Senator Borah of Idaho for his speech Wednesday night in Detroit which "flatly contradcts his (Borah's) previous statements, touch

ing the same Mr, Hoover, his character and his fitness to hold office."

At Alexandria, Va., Glass declared the legislative and executive experience of Gov. Smith, the Demi ocratic nominee, "better fitted him for the presidency than the limited

He took Hoover to task for not having protested, as a Cabinet member in the Harding administra-tion, against the leasing of the naval oil reserves and declared that the Republican nominee's relief work in Europe after the World War was done through funds "out of the United States Treasury with money put there by American taxpayers, regardless of political af-

"The leaders of the Republican party base their hopes," Caraway said, "for the retention of that party in power upon the hope that the American public has but a short memory. Its leaders and spokesmen now choose to forget their solemn statements erespect-ing their party and now flatly contradict their previous utter-

He referred in his address to previous declarations by Representatives Wood of Indiana, and Brand, of Ohio, and Senator Curtis of Kansas, the Republican vice presidential nominee, together with Senators Goff of West Vir-ginia and Fess of Ohio, in which he said they criticised Hoover. Speaking of Hoover's administration of European relief. Glass declared "the fact of the business is that the American people, un-der the directing leadership of Woodrow Wilson, fed the starving

women and children of Europe."

He said a number of Republicans at the time denounced Hoov-er's relief work, quoting Repre-sentative Wood of Indiana as say-ing the Republican nominee was "an expatriated former citizen of the United States and the late Representative Madden of Illinois as declaring the relief work as "an extravagant waste of public funds."

MOVE MADE TO INVESTIGATE

COMMUNISTS' WORK IN U. S. National Civic Federation Wants to Determine Whether They Are

NEW YORK, Sept. 20 .- The National Civic Federation has moved to investigate the activities of American Communists, their connections with the Soviet government of Russia and among college and university students.

Matthew Woll, vice president of the American Federation of Labor and acting president of the Civic Federation, presented the motion for the inquiry at a luncheon of the later organization. He said that America and the labor move-ment was in serious danger from the "boring from within" tactics of the Workers' (Communist) party, financed and directed from Mos-

While Samuel Tucker was wait-ing on a customer in his dry goods store at 8 North Jefferson avenue at 8:15 a. m. today he heard a noise in the next room. Investigating, he found a Negro helping Norma Kellar, 17, Causes Arhimself to quantities of silk hosiery. "Excuse me, mister, I'm in the wrong store," said the Negro.

Tucker grappled with him. The Negro slipped out of his grasp and scaped. Then Tucker discovered that \$15 worth of hosiery and \$75 was missing.

GREEN SAYS HIGH WAGES WILL CONTINUE

Present Scale Necessary to Keep Up Purchasing Power, He Asserts Here.

The high wage standards of the American worker must and will be maintained. William Green, president of the American Federaation of Labor, declared in an address to delegates at the convention of the International Association of Iron Workers here today. "High wages are economically

necessary, even in the face of un-employment." Green said. "Reduc-ing wages would only make the situation worse in communities where there are unemployment problems because it would reduce the pur-chasing power of those workers who are employed."

Green said the unemployment situation is "spotty," except in the unining and textile industries, which he characterized as "bad," "Some encouragement can be gotten in the latter situations from the fact that the interests involved are discussing their problems and should arrive at a solution," he said.

Green urged the delegates to strengthen their local unions and

to carry on the organization and educational campaign launched by the American Federation. He spoke against "company unions" and other alleged attempts on the part of certain groups of employers to weaken organized labor.

The five-day working week has proved to be satisfactory, particularly in the building industry. Green said. He declared the five-day week is one of the major ob-jectives of the Federation. He said Federation officers had realized, however, that it will be dif-ficult to introduce it into public utilities and similar services withsurvey of conditions in those in

The American Federation of Labor is strictly non-partisan in the present political campaign." Green said. "The Executive Council of the Federation decided to follow a non-partisan policy at its summer meeting. The worker is supplied with all available infor mation concerning candidates, being stressed in particular wheth er the candidate is favorable or worker is urged to vote for the friend of labor and against those who have been hostile to us, re-gardless of party."

When told that the iron workers had unanimously indersed Gov. Smith for President during their meeting here. Green said that privilege may be exercised by an dividual units of the America Federation without violating the Federation's non-partisan stand. EVEN BREAK IN DOUBLE BILL LEAVES ST. LOUIS CLUB WITH 2-GAME LEAD WITH 9 TO PLAY

By J. Roy Stockton, Of the Post-Dispatch Sport Staff.

NEW YORK, Sept. 21 .- John McGraw's baseball teams always die hard and the 1928 combination is no exception. It appeared tor a time yesterday that Muggsy's hordes were about to crack and crumble and that the rest of pennant campaign would be a joy ride for the Cardinals, but for a brief moment the St. Louis defense line vavered, and McGraw's fighters stayed in the race by smashing through and turning an impending Cardinal victory into a great riumph for the Giants.

La Palina is America's Largest Selling High Grade Cigar LOVER A popularity is the best proof of its unusual quality

A Message Vital To Your Health

As a result of a survey, it has is drawn through the cigar itself.

Moreover, a cigar is made entirely the principal executives of the Pullman Company smoke cigars. Their position and work requires the clear mind and the steady nerves that are so important to good health.

A cigar is smoked for enjoyment and taste, slowly and quietly, not to gratify a mere nervous habit or craving. So one cigar is not lighted from the end of another, nervously or hurriedly. The day's end does not find the cigar smoker tired, with nerves aflutter, throat irritated and mouth parched.

For to use the words of one of New York's most celebrated throat specialists:

"Perhaps the basic reason for the great prevalence of throat troubles is the irritating action of hot tobacco smoke on the very sensitive membranes of the mouth and throat.

"Cigar smoke is cool, because the tobacco burns slowly and the smoke is filtered and couled as it of tobacco without the use of an artificial quick-burning substance for wrapper." Make this test for a week-smoke

cigars exclusively and you will find yourself feeling better, with no cough or throat irritation, improved nerves, increased vitality and less of that tired feeling. To really test cigars with justice

to yourself and to cigars, we suggest the test be made with La Palinas. Since they are America's largest selling high grade cigar ... over a million a day-you can smoke them, confident that they will please you.

The sensational success of La Palina results from an exclusive and secret blend which combines for the first time in one cigar an extreme mildness with a rare richness of both taste and free

his thirty-seventh season at Chi-cago. The indications are that he pects, though Lindsey at Oklahoma also has a great team ir championship team perhaps, but the offing. Iowa State and Kansas will be just fair and Kansas Aggies not even that. Bill Hargiss comes to Kansas for the first time and it will no doubt take at least a year for him to get a system established. The same might be said of Bo McMillin, who is succeeding Bachman at the Aggies. Workman at Iowa State has shown real ability as a coach but his material is just ordinary. Iowa State is, however, more or less of a dark horse as these farmer boys develop over night.

Ossie Solem's prospects at Drake are not good, but Ossie may develop an offense around Barnes whi will score many touchdowns. Dr. Sharpe of Yale comes to Washing-ton University and "Hunk" Anderson of Notre Dame comes to St. Louis University. It will be interesting to see what these two men can do as they have both proven their worth in the past. Their biggest problem will past. Their biggest problem we be to create football enthusiasm.

Chet Wynne has fine prospects at Creighton and plays Minnesota at Minneapolis on Oct. 6. ST. CHARLES BRIDGE **RULED TAX EXEMPT**

Hasten Time When Crossing Will Be Free.

An opinion by Attorney-General Shartel, issued at Jefferson City broken tomorrow night when the morrow McNamee and Phillips linked last night in the first hookyesterday, that the Missouri River toll bridge at St. Charles is entitled to exemption from State income and property taxes, amounting to \$20,000 to \$25,000 annually, will hasten the time when the crossing will become free. The asked for the ruling, is expected

Congress has exempted the bridge from Federal income taxes and ordered a refund of \$82,000 of such taxes. All taxes have aggregated more than \$40,000 per year, but the levies on incom would have increased steadily, inasmuch as toll revenue has been

ecoming greater constantly.

Including the coming Federal refund, the amount paid off to the St. Louis & St. Charles Bridge Co., the former owner, to date, will be \$435,000, leaving a balance of \$815,000 to be retired from inome. Probate Judge Hodgdon of St. Louis County, chairman of the Citizens' Committee controlling the bridge, estimated today that at the end of this year \$125,000 to \$150.-

ing the bridge about half paid for.

By the end of 1930, the Judge said, it is anticipated the whole cost of \$1.250,000 will have been retired and the bridge will bec free. The committee took over t structure and started paying for it out of tolls on Aug. 1, 1926. with the expectation that seven years would be required to remove the collectors on the approaches Traffic has increased more than was foreseen, being about 33 per cent greater in volume now than in 1926, and meanwhile interest charges are shrinking

For "all practical purposes," At-torney-General Shartel held, "the public is the beneficial owner of the bridge, subject to whatever liens there may be for the unpaid portion of the purchase price." When that price is paid, he pointout, the title would remain with St. Louis and St. Charles Counties, jointly, as part of the State highway system. Title now rests with the counties, he de-clared, and therefore, it is proper to exempt the bridge from taxation in compliance with the Con-

"The important proposition inrolves." said the opinion, "is the fact that the public is paying evdollar of taxes assessed against the bridge, in the form of tolls for a longer period." Jefferson City civic groups

have formed a corporation which has taken over the Missouri River toll bridge at the capital, under a similar arrangement, with the intention of giving the crossing to the city as a free bridge when the price of \$366,000 set by the for-mer owner, the Missouri Power & Light Co., is met from income. Title to this structure rests with the civic corporation and hence it does not appear that the same ex-

Smith and the Progressive Vote

New York Times doubts that La Follette's heterogeneous following can be mobilized again for Smith; Brooklyn Eagle thinks the situation is one that invites the Democrats to make an aggressive fight; Baltimore Evening Sun gives two reasons why the Progressives should oppose Hoover.

LA FOLLETTE'S HETEROGENEOUS

FOLLOWING. From the New York Times.

DOLITICAL mathematicians have for some time been toying with the La Follette vote of 1924. It is an inviting field for political speculation. But the theoretical apportioners or monopolizers of the La Follette vote ought to start out with a reasonably accurate analysis of what it really was. It was called the "Progressive" vote, purely for lack of another name. It had no direct connection with the Progressive party of 1912. That collection of idealists and scheming politicians, along with what its own leader called its "lunatic fringe," was pretty thoroughly dissolved nto its constituent elements by 1916. Most of them were attracted back to the Republican party, whence they came. official blessing of the Progressive chief was given to Mr. Hughes when he was the Republican candidate for the presidency in 1916. After that the Progressive party had members of it undoubtedly lived up to their reputation for restlessness by going off with Senator La Follette in 1924. But his actual following was about as heterogeneous as could be imagined. It was made up of all kinds of people, unable to agree with each other, often unable to agree with themselves for any length of time, but all bound together temporarily in the hop of winning a presidential election, or at least of making an imposing political demonstration. But after the lapse of four years it would be impossible to gather them all under one banner.

As the two great parties are finding that this year's issues cut deeply into their solidarity, so it is highly probable that the same influences will break up the La Follette vote, cast as it was by many men of many minds. If they should all see together this year on prohibition or ferm relief and march in a body to surrender themselves in the camp of either the Re-publicans or the Democrats, it would be littie short of a political miracle. It is shrewder for the campaigners to reckon the Progressives of 1924 as now largely merged with the great mass of their fellow-citizens, who must be appealed to without much regard for previous party affiliations, and won over to the candidate who seems to them to promise best for the adninistration of the country during the next four years.

SMITH'S PROGRESSIVE APPEAL

From the Brooklyn Eagle. THE degree to which dissatisfied Repub-I licans who still rate themselves Progressives will express their dissatisfaction voting the Democratic ticket is beyond the forecasting powers of the wisest po-litical prophets. La Foliette was a Republican appealing to Republicans. The appeal of a Democrat to Republicans is a different matter. Some of the leaders of the agrarian revolt against Mr. Hoover's ination are already back in the Recublican fold. Others are sitting on the fence giving no aid to the party ticket but seceding to the Democrats.

Others; again, have come frankly to Gov

one that invites the Democratic party to

wage an aggressive fight. That there is real distress in the Western farming areas not even the Republicans deny. They meet the open discontent of the distressed with the preposterous argument that their party is alone fit to govern and that the farmer has nothing to hope for unless they are continued in power. That argument, which aims to condone a singularly negative record, can win votes only from those who put party allegiance and traditions above every other consideration The issue of agricultural distress apart, Gov. smith's record as an initiator of progress legislation should make a strong appeal. His work for the betterment of labor conditions, especially those affecting women, is one more proof of his vision, courage and humanitarianism. His stand on water power cannot be without its influence upon Progressive voters in those states where water power is regarded as a vital question. For these reasons, as for others, he is in a position to make a strong bid for Progressive support.

COAN AND LOCKWOOD.

m the Baltimore Evening Sun. THE Democrats are tremendously excited and bucked up this week because of the multiplying indications that the Progressives of the country-the sort of people who backed Robert La Follette four years ago-are flocking to the standard of It may be that they are overoptimistic.

Heretofore, when they have had no candidate of their own, the Progressives have tended to remain safely Republican. But there are particular reasons why

Progressives should oppose Mr. Herbert Hoover and some of those reasons are of an interesting character.

One of the heroes of the Progressive movement is Senator Burton Wheeler of Montana. Senator Wheeler was one of the leaders of the movement to break up the gang of despoilers who had found a place in the Harding entourage. The Department of Justice of the United States was used in the attempt to "get something" on Senator Wheeler, A man named Blair Coan was sent to Montana to work up something against Wheeler.

Today Blair Coan is among the most active supporters of Mr. Herbert Hoover. There is still another reason why Progressives should object to Mr. Hoover, One of the common methods used to discredit Progressives is to call them bolsheviks and to intimate that they have been bought with Russian gold. The lack of real bolsheviks makes it difficult to keep the red scare going in the United States. Those who desire to keep it going for their own purposes commonly resort to the device of calling every Progressive a red. One of the chief fomentors of the fake anti-red scare in this country has been a publication called the National Republican. This publication was at one time regarded as the official publication of the Republican party. Its editor at that time was one George Lockwood. George Lockwood was, and is George Lockwood was, and is, a "red" baiter.

Today George Lockwood is an ardent supporter of Mr. Herbert Hoover. There are two excellent reasons why

The Secret of High Tire Mileage

The secret of this isn't in buying cheap tires. Cheap tires are not only more expensive-often they cost two or three times as much. The secret of tire economy is a paradox; it consists of buying the BEST tire, and then profiting by real TIRE SERVICE from the best dealer in getting the most out of that tire.

DENIES ATTACKING

SMITH'S RELIGION

Continued from Page 31. ublicans had countenanced the troduction of the religious quesion into the campaign, said last

to be dignified by denials.
"I need only point to the letter
of June 29, 1928 of the chairman of the Republican National Com-mittee to national committeemen and women, in which was said:

"The campaign policy we propose to follow will be informative and constructive only. Conscience and personal liberty within the

law are not proper subjects fo olitical debate." G. O. P. Leaders Assert They Know Nothing of Attacks.

By the Associated Press. NEW YORK, Sept. 21.—Officers at Republican National headquarters unanimously denied today any connection with any "whispering campaign" against Gov. Smith.
"The Governor's accusation in

his Oklahoma speech," said Daniel E. Pomeroy, vice chairman of the Republican National Committee, that the Republican National Committee is responsible for aiding and abetting the so-called whisper ng campaign is utterly false. Only week, while Mr. Hoover was New Jersey at a luncheon given in him by Senator Walter E. dge, he absolutely and specificalstated. This must not be a camaign of personalities and I will not tolerate any personal attacks on any opponen Col. John Q. Tilson, chairman of

the Eastern division of the Repub-lican Speakers' Bureau, said: "If the Governor's remarks are di-rected 'at those conducting the over campaign, he is wide mark because the Republic npaign managers have studious avoided anything remotel embling the methods criticised Gov. Smith. On the contrary, e Hoover managers, have been sistent that their speakers and ubordinates shall not indulge in personalities, and, most of all, hall refrain from everything ching religious prejudices. If the Governor's remarks are direct d at his own party or at people utside the Republican party, that is a matter for the Democrats to handle among themselves."

Congressman Robert Low Bacon of New York, assistant to Senator George H. Moses, vice chairman of the Eastern Advisory Committee, who was out of town, asserted:
"The Republicans are leaning over
backward in their effort to make
this an impersonal campaign. Mr.
Hoover is a high-minded American entleman who is conducting the ampaign in the open and above ard. He would not countenance ch a proposition for one min-

William H. Hill, State Hoover-Curtis chairman, said: "So far as am able to find out, the Demorate are doing most of the talking from AC house current this religious business. Hauger's business, at both St. Louis Stores, is increasing by leaps and bounds.

Our policy of selling men's fine clothing at the smallest profit margin, is meeting the approval of thousands of business, professional, and college men as well as mechanics and laboring men.

They have found that Hauger's Clothing is marked for less, at the beginning of the season not merely reduced for endof-season clearing sales as is the general practice.

Thousands of Fall and Winter Suits await your approval!

Freezing salads is a very simple thing if you are the possessor of one of the mechanical refrigera-tors; but it is not a difficult thing at any time. A delicious salad is made by mixing together first one cup of heavy cream whipped stiff, and three-fourths of a cup of wellseasoned, very smooth mayonnaise. Soak one tablespoon of plain gelatine in one-fourth cup cold water for 10 minutes, then dissolve In lot water and add to the mayo.

Mix one cup of sliced pitted dates, three preserved figs cut in pieces, three oranges peeled and cut in dice, and two cups of mixed canned salad fruits. Here is a recipe for Popovers that's a delight to women; to women who have been having "bad luck" with theirs. Of 118 women who tried it. not one failed in perfect results, first time, due to this new way of simplified

By the development of an utterly new type of flour—Gold Medal "Kitchen-tested" Flour—baking has been simplified amazingly for house-wives. And the cause of most baking disappointments banished.

"Kitchen-tested" means that every batch of this flour has been tested in batch of this four has been executed in a kitchen, at the mill, in an oven just like yours, before it goes to you. Tested for uniformity of result with That means a flour that acts the same way EVERY TIME with your recipes. Most flour varies greatly. Different sacks of other brands often acting, as you know, entirely different in your oven. That's where over 50% of all baking disappointments come in.

Now special "Kitchen-tested" Reci-pes, too, have been developed. The recipe thus fits the flour exactly. And the flour fits the recipe exactly. So you get Exact results every time. To use this combination is a revela-

Soft, or boiled custard can be used

in so many delicious ways that I often deliberately plan to make more than I will need at one meal.

Have you ever tried serving custard over canned fruits? It's par-

peaches, and for a "dress-up" touch you may top the custard with

Almost any pudding borrows new goodness from custard sauce. Fruit

tapioca, rice pudding, and prune pudding go up one hundred percent in my family's estimation when

served this way. Another favorite is a square of hot gingerbread with

One of my most popular bridge

party dishes is a sponge cake that has been split, hollowed out, and

Just what so many of my readers have been wanting—the best of the Libby recipes in permanent form Here is a carefully chosen group of the recipes I'm proudest of—some-thing "different" for every course of every meal. They are printed on cards and filed in convenient indexed folders. The file case is as attractive as it is unusual, for it's made up in book form in beautiful, kitchen blue leather. I think you'll find the recipes a real help for I've chosen dishes for every occasion and tested each one. There are some practical menus, too, and a buying guide, as well as extra cards for recipes you may want to add. To get the recipes and case, just send 50c in stamps with your name and address plainly printed. Mary Hale Martin, Cooking Correspondent, Libby, McNeill & Libby, Dept. PD-9, Welfare Bldg., Chicago.

A soap that dissolves instantly! Does it sound too good to be true? Then try the easy, simple test shown above, and begin to enjoy the freedom from drudgery which will be yours once soap Super Suds really is.

Super Suds goes to work in washtub or machine faster than any other soap you ever saw. No gummy chips left to prevent quick rinsing or to weaken the fabric. No chance for yellow clothes or soap stains.

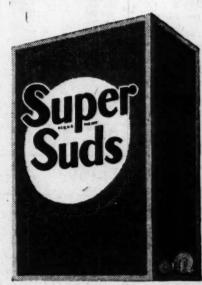

No more coaxing chips and flakes

Super Suds goes to work quicker than chips because it is four times as thin as chips-the thinnest soap made. That's why it dissolves so wonderfully.

This astonishing new form of soap has swept the country because it has given women perfect rinsing, whiter clothes and lightened the tedious task of dishwashing, too.

Say "Super Suds" and your grocer will hand you the biggest box of soap you ever saw for

you see what a splendid household Use Super Suds three times a day for dishes. Two or three tablespoons of bead soap give full rich suds. Glasses and silver gleam. China needs no wiping. Just a hot rinse—and drain. A box of old-time soap as big as this used to cost 25¢. The new-type soap, Super Suds, only 10¢.

Warrants Issued Against Tony Cusumano in Kidnaping of Mary Lamacchia.

Warrants charging kidnaping and criminal attack have been issued against Tony Cusumano, 32 years old, 1321 North Seventh street, for his efforts to make Mary Lamacchia, 19, 1602 North Ninth street, his wife, against her

Miss Lamacchia was walking with her sister at Ninth and Mullanphy streets Tuesday evening when an automobile driven by Cusumano pulled up to the curb and two youths with him dragged her into the car. She said she was tak-en to a house across the river where Cusumano attacked her. "You have to marry me now," she said Cusumano told her. "If you don't marry me, you'll be disgraced and an outcast from your

The girl said she was then taken to a house near Twenty-first street and Cass avenue, where she was held prisoner all night. At 6 o'clock Wednesday morning, when she still refused to marry Cusumano, he started with her in his car for Mexico, Mo., to visit his sister, the wife of a fruit dealer there.

In Mexico she finally agreed to marriage, and Cusumano had her telephone her sister and anfamily notified St. Louis police and they reached the Mexico courtouse to apply for a marriage li-

with him. He and he had known the girl for a year and had proposed marriage to her three weeks ago, but thet with a rejection. He then arranged the kidnaping with the assistance of his two nephews, whom he named. The abduction was similar to previous forced "elopements" among Italians, except that in this case the kidnaper was arrested before he could marry the kidnaped.

"I suppose I'll have to marry him now," Miss Lamacchia said upon her return to St. Louis with her father and a city detective. She sight. She did not care for advances he made prior to the ab-

JEALT! How To Get How To Keep It

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

The lesson is this: "Keep your system pure and you will have health and strength to gain and enjoy happiness, success

and length of years." But you may ask:-

How Can I Keep My System Pure?

That is not a hard question to answer, for physiology plainly teaches you that your liver, which is larger than any of your other vital organs, has the special work of purifying your blood and thereby your entire system and of keeping it pure and

How Does the Liver Purify?

Physicians tell us that the liver has several functions, one the bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and antiseptic or prophylactic. In health, it is your bile that makes your bowels act regularly and freely every day, -it is Nature's only purpative. It is your bile that keeps your bowels pure, sweet, clean and free from fermentation (gas) putrefaction and decay. Remember that germs do not thrive where there is fresh bile and there can therefore be no fermentation to cause gas, nor putrefaction or decay to produce poisons or toxines. Also, as bile is Nature's purgative, there can be no constipation if the bile is flowing naturally and freely from the gall-bladder into the bowels

But when the bile becomes stagnant and stops flowing freely, your bowels stop acting regularly and the contents become a foul, stagnant breeding bed for the germs of fermentation (gas) decay and disease. These poisons, (called toxines) are gradually absorbed into your blood and circulate all over your body, poisoning, irritating or inflaming your brain and nerves, your muscles and joints, your heart, lungs, skin, kidneys, bladder, spleen and every vital organ of your body, including your liver, stomach and bowels. Your doctor calls this "intestinal toxacmia."

Functions of Gall-Bladder

In 24 hours your liver secretes about 25 to 30 ounces (5 to 6 teacupsful) of bile, which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the gall-bladder, as creeks and rivulets unite to form a river that flows into a lake. Your gall-bladder is a hollow muscle that serves the double purpose of a reservoir and a pump. Its functions are similar to those of the urinary bladder. About two hours after eating, when the food is passing from the stomach into the intestine, your gall-bladder should begin its peristaltic contractions, thus pumping the bile into the small intestine where it is mixed with your food. Bile is also a very important digestive fluid, aiding in the digestion and absorption of fats and oils. But that is too long a story to

Nature's Danger Signals

When your car gets out of fix you can tell it. It is the same way with your bile. Nature gives you warning not by words, but by signals or symptoms. Your doctor recognizes these danger signals and you also should know them and instantly heed them. It may save you much pain, serious illness and perhaps, big repair bills.

When the bile becomes stagnant in your gall-bladder and is dammed back into your liver instead of flowing freely into your bowels you, sooner or later, begin to feel some of the following symptoms:-Your breath may become heavy or foul, your tongue coated, a bad taste in your mouth, your food (and tobacco) lose their natural flavor, your food does not agree with you; you may have heartburn, gas, or fluttering around the heart, dizziness or blind spells; you may be troubled with

belching or frequent passages of gas from the bowels; the gas "balloons" your bowels and presses so hard on the kidneys that it gives you pain, soreness, stiffness in the small of your back over your kidneys, making you think you have kidney trouble; at night the gas in your bowels presses upon your bladder making you get up frequently, thus breaking into your sleep. In the morning you are tired instead of refreshed. Gradually your health is injured. Your complexion becomes sallow, muddy or yellow-your skin may be disfigured with liver spots or pimples; dark rings may appear under your eyes you may become sleepless, restless and irritable or blue and melancholic. You may have frequent colds or dull headach your bowels stop their free, full and natural action; you have constipation, fermentation, gas, putrefaction and self-poison ing or "intestical toxaemia," as the doctors call it. High blood pressure, with headache and swooning spells, may result from continued neglect.

How to Make the Bile Flow

But when the bile stops flowing freely, how can we start it up again? The answer is: Take Calotabs at bedtime and drink water freely the next day. This formula represents the best thought and experience of the best physicians in every civilized country in the world. No other purgative will do. If you take oils, salts, cascara, or the many other simple-laxative syrups, powders and candy laxatives, you are merely wasting valuable time. They only make you feel better for a day or two. They do not remove the cause, for they do not promote the flow of the bile which is Nature's only purgative and intestinal antiseptic. When you take Calotabs you know that you have taken a real, doctor's medicine. It cleans you out thoroughly. Every inch of your twenty-five foot canal, includur stomach, small intestines and large intestines, is thoroughly cleared and washed clean and pure and your bile is flowing freely. Next morning your system feels purified and refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you please and go about your work:there is no danger, for Calotabs are perfectly safe and create no habit except the habit of healthy bowel actions.

What are Calotabs-How do They Act?

Calotabs are composed of a thoroughly purified and refined calomel combined with assistants and correctives. The calomel increases the flow of the bile from the gall-bladder into the integtines, and also serves as an intestinal antiseptic. Every physician knows that no other medicine can take its place; there is no such thing as a substitute for calomel. The assistants act like salts, washing the calomel out of the system and preventing its accumulation and any possibility of danger. The correctives settle the stomach and bowels, pre-venting nausea, sickening and griping effects. Calotabs, (and water) therefore, give you the combined effects of calomel and salts without the nauscating, sickening, griping and dangerous effects of either.

The medicine chest of every home should be supplied with Calotabs, one of the most important of all family medicines, for it is needed in many cases of sickness, and, if used promptly, may prevent many cases of serious illness.

Avoid disappointment by refusing imitations and substitutes. Your druggist can supply you with genuine Calotaba if you insist. For your protection, Calotabs are marketed in original packages only, having the copyrighted trademark shown above. Family package, containing full directions, TEXT OF GOV. ADDRESS M OKLAH

NEW YORK OF KANSAS CITY Edward G. Trimble, President of the Employers Reinsurance Co-poration, has summarized in part his letter regarding the Corporation as follows: Copies of this letter may be had from the undersigned upon request.

The Corporation, organized as Employers Indemnity Corporation with a paid-in capital and surplus of \$250,000, has been successfully engaged since 1914 in writing excess and reinsurance on miscellaneous casualty lines, including workmen's compensation, accident and health, automobile liability and property damage, public liability, fidelity and surety, burglary and theft insurance. The Corporation under its former name, Employers Indemnity Corporation, has been licensed to do business in 43 States, the District of Columbia and the Dominion of Canada. On the basis of paid-in capital and surplus amounting to over \$3,600,000, the Corporation is now

the largest domestic stock corporation writing casualty reinsurance in the United States. The Corporation's principal office is located in Kansas City, Missouri, and underwriting offices are maintained in New York and Chicago. Its accounts and records are regularly examined by certified public accountants and by convention examiners representing the forty-three states in which the Corporation does business. With a record of 14 years of successful and profitable operation behind it, having paid dividends on its capital stock each year since its organization, the Corporation occupies today a leading position in casualty reinsurance, a field which is steadily increasing in scope and volume.

The same management, which has built the Corporation to its present size and position of importance, including Mr. Howard Flagg as Vice-President, will continue to manage its affairs.

The Corporation's operating results for the two and one-half years ended June 30, 1928, have been examined for the Bankers by Alfred M. Best, Esq., Insurance Advisor. All legal details have been handled by Messes. Chiadbourne, Stanchfield & Levy of New York, and Messes, Ryland, Boys, Stinson, Mag & Thomson of Kanisas City, Mo., for the Bankers and this offering is subject to their approval. The books of the Corporation have been audited for the Bankers by Messes. Frasct, Dell & Co., Certified Public Accountants, Kanisas City, Mo.

Price \$38.00 per share

We have accepted as accepted the above information and statements, but this offering is made on the condition that no errors, omissions or misstatements berein shall give rise to any right or claim against us.

What Chicago's "Billion Dollar Bank" Will Mean To Its Customers

When the consolidation of the Continental National Bank and Trust Company and the Illinois Merchants Trust Company is completed, the resulting Continental Illinois Bank and Trust Company will be a financial institution in the front rank of the strongest, best equipped banks in the world.

As a commercial bank-local, national and international in scope-it will be an acceptable depository for business organizations of large capitalization which rightfully demand commensurate security for their funds. It will have the legal and actual ability to extend a larger line of credit to a customer, whose financial condition warrants, than he can now obtain at both the Continental and the Illinois Merchants.

The consolidated bank will have a larger list of bank correspondents than any other financial institution in the country. This means, among other things, that Continental Illinois customers and bank correspondents will have an unexcelled source of credit information.

Both the Continental and the Illinois Merchants are outstanding for the comprehensiveness of their foreign banking facilities. Each bank has many thousands of correspondents throughout the world. Each has a staff experienced in foreign banking. Customers of the Continental Illinois, therefore, will have the advantage of the combined equipment and personnel. The customers of the Illinois Merchants will have available the added facilities of the present office of the Continental Bank representative in London.

As a trust company, it will have enlarged and improved facilities resulting from the union of two great trust departments organized and equipped to handle every kind of fiduciary business-personal and corporate. It will also place the combined skill, knowledge and experience of the trust officers of both banks at the command of clients.

As a savings bank, it will provide for hundreds of thousands of savers in Chicago an unsurpassed degree of safety-resources over a billion dollars-and adequate equipment for their convenience, as well as competent assistance in financial matters.

As an investment organization, the Continental Illinois Company, with invested capital of twenty million dollars, will bring to Chicago and the Middle West opportunit now lacking, for the permanent financing of business in this great industrial region.

Investors, large and small, will have convenient for their use the facilities of the enlarged Company, not only through headquarters but also through twelve out-of-town offices, where they can make their selection from a wide range of securities and obtain dependable information and sound advice.

Every department-commercial banking, foreign, personal and corporate trusts, savings, investment-will be strengthened and improved in service by the uniting of personnel and the adoption of the best features of system and method now employed in each institution.

It is a point worthy of repetition that all customers of both banks will continue to transact their business at the consolidated bank with officers and employes who are now serving them.

Customers and bank correspondents who have considered it necessary to maintain relations with both the Continental and the Illinois Merchants, in order to enjoy the advantages of both banks, will be able to obtain greater accommodation, service, satisfaction by their connection with the one consolidated bank-the Continental Illinois Bank and Trust Company.

LEGAL INFORMATION

(By a Member of the St. Louis Bar Association)

E. P. J.—You can get a one-third interest in the house at your husband's death whether he makes a will or not.

POOR LANDLADY.—Legally you could not sell the car without taking legal action against the owner and advertising the car.

E. H. W.—Negroes may get grandstand seats at the ball park, as you ask. Theaters can be compelled to sell them tickets but not for any particular seats.

MR. I.—As to selling a car which is standing in a parking yard, without pay, you should first file a verified statement about it with a Justice of the Peace and then advertise, etc. You will need a lawyer.

L. E. T.—If your husband indores the note and deed to you as a gift you could collect them in case of his death. Otherwise they would go to his executor or administrator.

READER OF P.-D.—The law abolishing common law marriages was the note to you and alwelved to take out administrator.

When the "Light Traffic" **Argument Fails**

Just the other day, a man in this community said:

"The traffic out this way is too light to justify a Concrete Road."

The answer to this is that improvement of any highway increases traffic. Frequently it changes light traffic into heavy traffic almost overnight.

That is why it always pays in the end to build Concrete Roads —the roads that stand up indefinitely under the heaviest traffic, practically without repairs.

> Our booklet tells many interesting facts about Concrete roads. Write this office for your copy.
